Module 1. Summary

The module contains 4 themes. Each theme deals with a separate problem. The working materials of each theme contain a lecture, a seminar with instructions and tasks, a test. Students are supposed to take a module test after studying the 4 themes of the module. They are also supposed to do individual tasks after completion studying the module. The mark a student can get is the total of his/her achievements, including presence at the lectures, completing tasks for seminars and successful presentation of the tasks, individual work and results of the test.
