6 – Program competencies								
Integral competences	Ability to solve research problems and practical problems in the field of history and archeology or in the process of studying, to							
	analyze historical phenomena and events that involve the							
	application of theories and methods of historical science and is							
	characterized by complexity and uncertainty of the conditions.							
General competences (GC)	GC 1. Ability to accumulate knowledge, perform independent							
general competences (GG)	search and process information;							
	GC 2. Ability to organize creative teams in order to solve complex							
	interdisciplinary problems;							
	GC 3. Ability to apply acquired knowledge and skills in practical							
	situations, demonstrating initiative and entrepreneurship;							
	GC 4. Ability to adapt and act in a new situation;							
	GC 5. Ability to interact with representatives of other professional							
	groups in Humanities;							
	GC 6. Ability to think creatively, to solve non-standard problems,							
D C : 1	to form independent inferences and conclusions.							
Professional competence of	PC 1. Ability to identify and explore different types of historical							
the specialty (PC)	sources, analyze scientific texts and summarize information; PC 2. Ability to carry out historical research on a specific subject,							
	using methodological tools of other humanities, using information							
	and communication technologies and information databases;							
	PC 3. Ability to create texts in one of the foreign languages using							
	appropriate professional terminology;							
	PC 4. Ability to participate in discussions on a particular scientific							
	problem, in various forms;							
	PC 8. Ability to distinguish specificity in approaches to problem							
	solving in history and archeology; representatives of various							
	scientific areas and schools, critically reflect on the latest							
	achievements of historical science;							
	PC 9. Ability to apply the principles and methods of pedagogy and							
	psychology in the educational process in secondary, vocational and educational institutions as well as in postgraduate education;							
	PC 10. Ability to apply in-depth knowledge of the chosen							
	specialization in the development (according to certain							
	requirements) of scientific applied projects, as well as in solving							
	certain practical problems.							
	7 – Program learning outcomes							
	PLO 1. Deep knowledge within specialization including latest							
	data.							
	PLO 2. Understanding the specificity of historical cognition in							
	specific historiographic periods, up to the present stage.							
	PLO 3. Knowledge of professional norms in the fields of history							
	and archeology. PLO 4. Knowledge of basic steps of scientific research in the field							
	of history and archeology and objectives of each.							
	PLO 5. Understanding of the main theoretical and methodological							
	problems of modern historical science.							
	PLO 6. Understanding the ways of forming a representative source							
	base for the development of a certain historical problem.							
	PLO 7. Understanding the connection and the difference between							
	historic facts in the original source and historiographical facts in							
	the scientific literature.							
	PLO 8. Ability to choose the correct methodology and best							

PLO 9. Understanding and the ability to interpret the main tasks of historical and archaeological science. PLO 10. The ability to explain the connections between processes in the past and present, to evaluate alternative ways of interpreting the main tendencies and peculiarities of historical development of mankind in certain historical periods. PLO 11. The ability to analyze the connections between the professional historian's views and the prevailing perceptions of the past in society. PLO 12. Ability to demonstrate professional communication skills in a foreign language. PLO 13. The ability to identify an initiative aimed at preserving and managing cultural heritage. PLO 14. The ability to participate in real research projects. PLO 15. Ability to analyze phenomena and processes of world history, taking into account modern theories of social development. PLO 16. Ability to determine the information potential of specific historical sources in solving a certain scientific problem. PLO 17. The ability to explore the life and activity of specific people, taking into account the achievements of modern biographical studies. PLO 18. Ability to examine sights of material and spiritual culture, for the purpose of their further use in the field of tourism and recreation. PLO 19. Ability to substantiate the research purpose and objectives in view of current issues. PLO 20. Ability to summarize the results of research. 8 – Resource support for the implementation of the program Staff support of the educational program consists of the teaching Staff support staff of the Ukrainian History Chair and the World History Chair of the History and Philosophy Faculty.
